

Special Train on the Georgetown Loop Railroad

Saturday, August 21, 2004

One hundred passengers or more will get to ride on a special train with Shay locomotive #14, rarely used coach "Lake Tahoe," a gondola, a stock car, and caboose #0574. There is a possibility that we will get a tour of the grounds in Silver Plume at 10:00 AM before the train departs. The train ride will depart at 10:45 AM from the Silver Plume depot. The train follows the south bank of Clear Creek for a short distance leaving Silver Plume before going around the "S-curves" toward the "big" loop trestle. The curved "Devil's Gate" trestle is 300 feet long and about 100 feet high crossing over Clear Creek and the track below. This section of the original Colorado Central was built from Georgetown to Silver Plume during 1884 using the famous Devil's Gate Bridge in a loop to gain elevation in this steep rugged mountain area. There will be photo run-bys in scenic areas among the regularly scheduled trains. Those that drive should park across the street from the exit ramp on the north side of I-70, and walk under I-70 to the depot.

This may be the last year for the Georgetown Loop Railroad to operate with the current equipment, so you will not want to miss this historic ride.

The cost will be \$25.00 each for adults 14 and up, and \$20.00 each for children 3-13. Infants up to 2 years old are free when sitting on an adult's lap. Don Hulse - Trip Chairman.
